

Staff Guide to Creating a School Messenger GO Account!

SchoolMessenger is the new messaging system that the Stafford School District will be using to send important notifications related to emergencies, school closings and delays, attendance, and other general information! This guide will serve to help you set up your new SchoolMessenger GO account, which is meant to give SchoolMessenger users a place to customize their own contact preferences. You will be able to change which phone numbers and emails receive which types of notifications, and also view both past and current notifications sent to you. In the future, your SchoolMessenger GO account will also have the functionality for teachers to communicate with parents and students from their classes!

Your first step will be to visit this link:

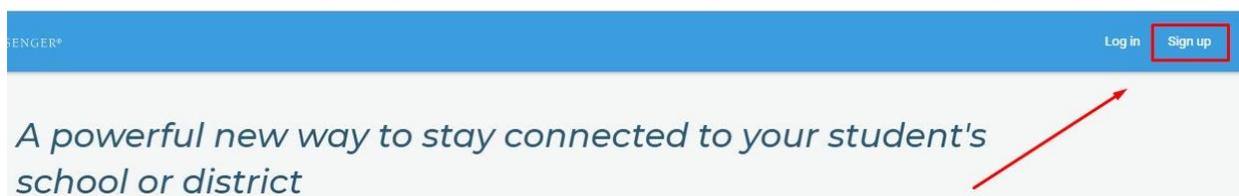

<https://go.schoolmessenger.com/#/home>

(This link is also available on the school website located here
Notifications > Faculty & Staff >

School Messenger Notification System Customize Link:

http://stafford.k12.ct.us/notifications/faculty_staff)

At the top right-hand corner, please click Sign up

Your sign up page will look like this:

As the directions describe, please use the email associated with your account, which in this case will be your work email

Example:

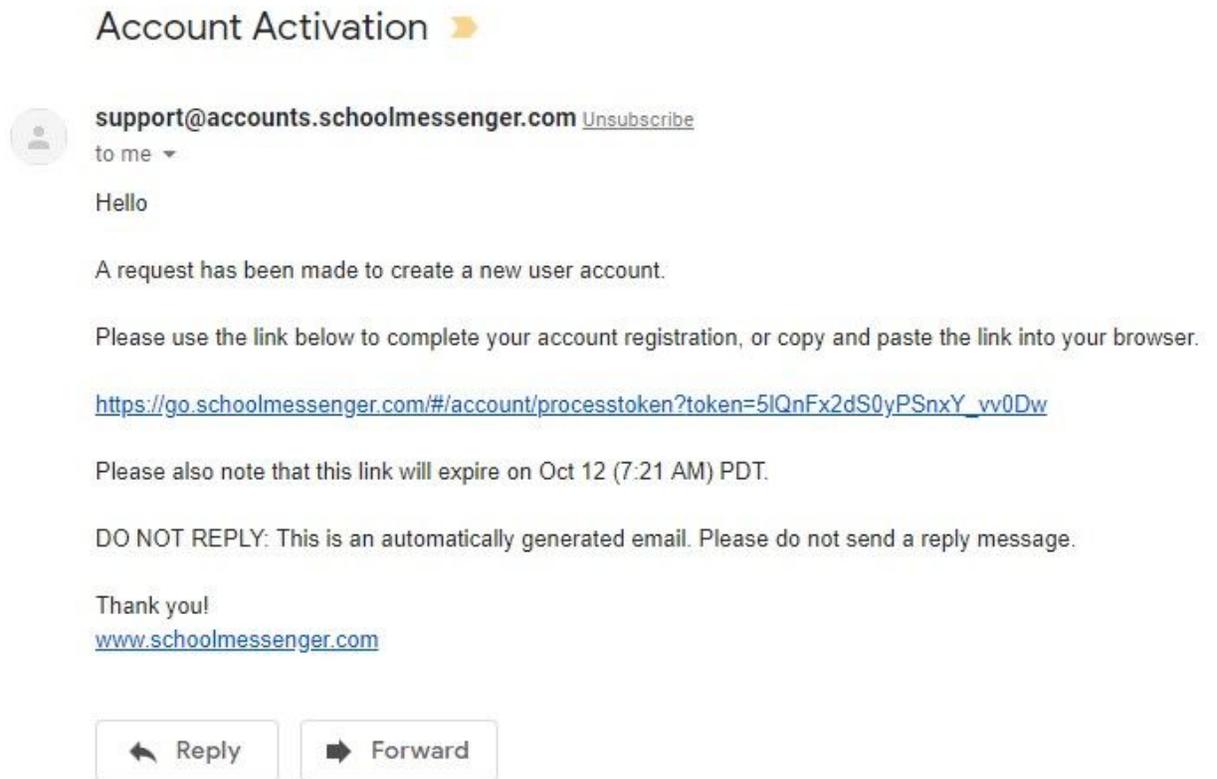

name@stafford.k12.ct.us

Please then input a new password into the password field, following the four rules listed:

One Lowercase Letter,
One Uppercase Letter,
One Number,
A minimum of 6 characters.

A screenshot of a sign-up form. The form is titled "Sign up" and is set against a light gray background. At the top, there is a blue callout box with white text that reads: "Use the same email address your school has on record. If you wish to use a different one, please contact your school and ask them to update your email address." Below this, the form has several fields: "Email" with a text input field, "Password" with a text input field and a list of requirements: "One lowercase letter", "One uppercase letter", "One number", and "6 - 255 characters". Below the password field is a "Location" section with a dropdown menu currently showing "US" and "United States". Below the location section is a question: "Is your school in Canada?" with a blue link "Switch location". At the bottom of the form is a large blue button labeled "Sign up".

You will then be prompted to activate your account. An email like this should have been sent to the address you provided:

Clicking on the link in the email will activate your account and bring you directly to a login page where you will put in your email address and the password you just created.

The next screen will look something like this, with your telephone numbers listed:

Do we have permission to call you?

Please select which phone number(s) your school or school district may contact you at for non-emergency purposes.

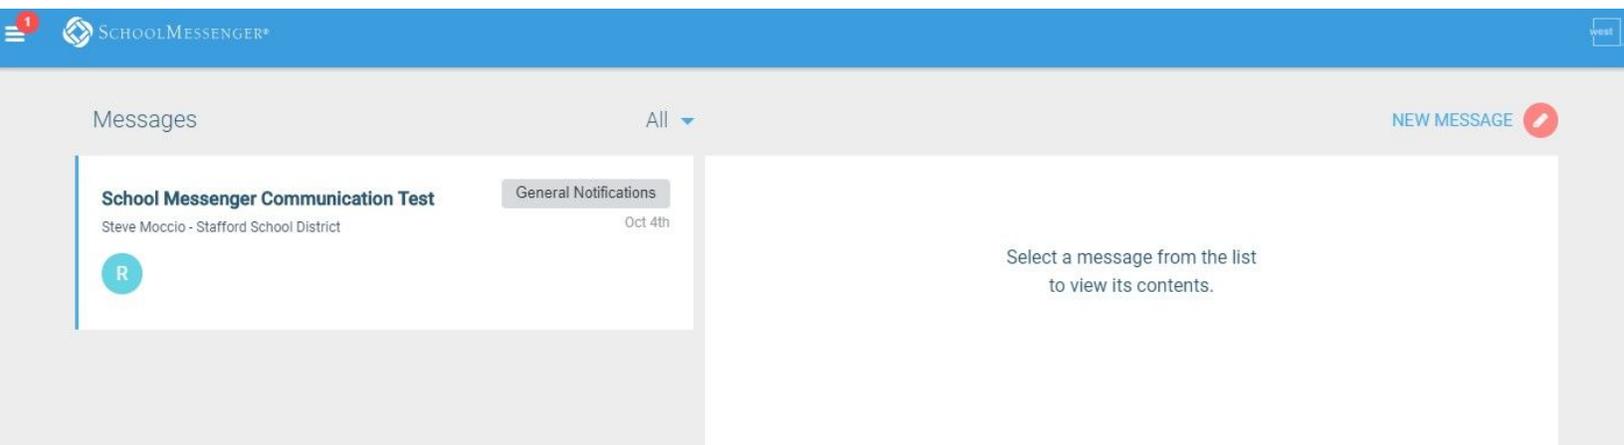

(860) [REDACTED] Is it ok to call this phone number? ▾

(860) [REDACTED] Is it ok to call this phone number? ▾

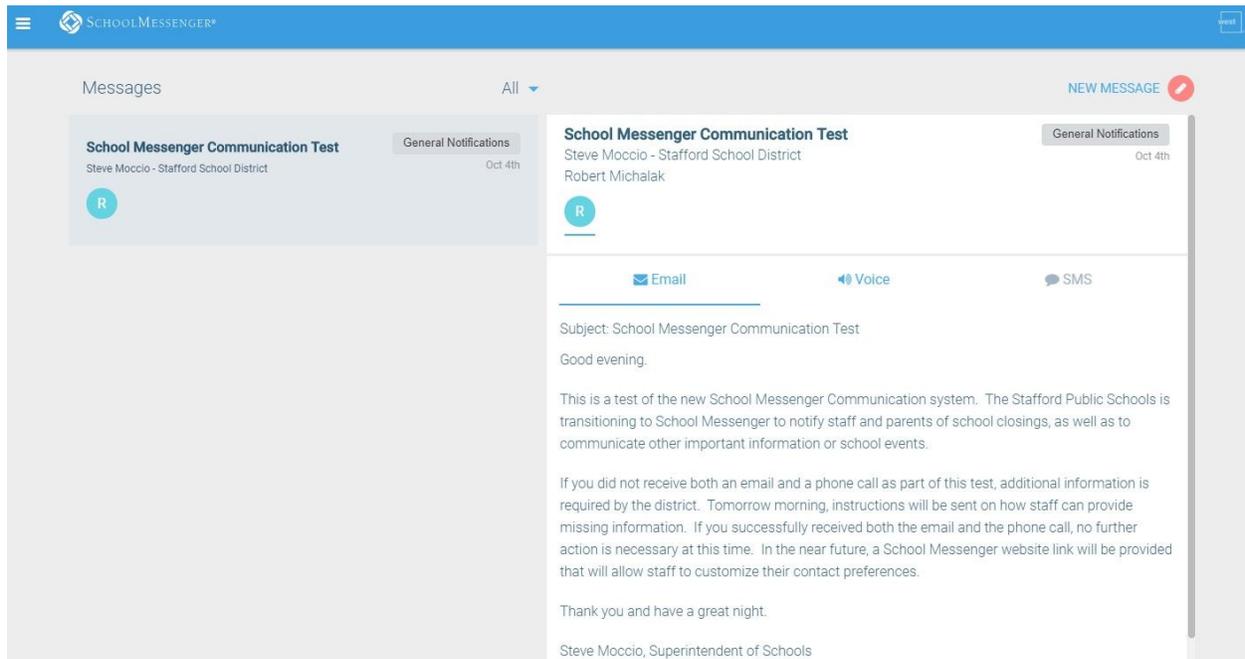

By selecting yes and save, I consent to receive calls containing pre-recorded voice messages.

Cancel Save

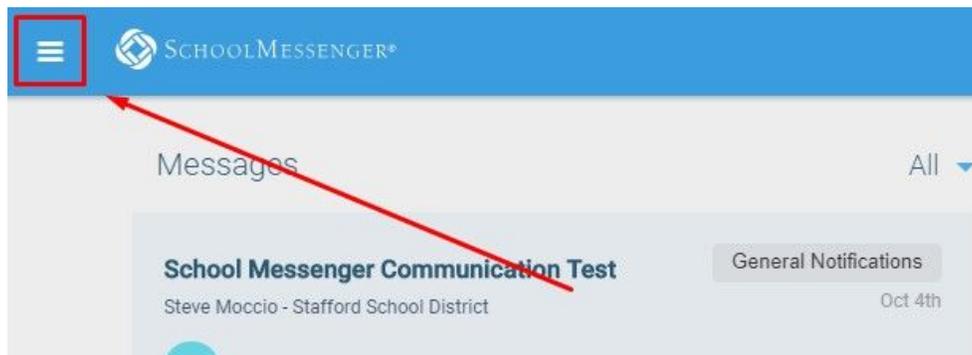

This initial screen makes it easy for you to quickly provide permission to SchoolMessenger to send you phone calls! If you would like a more detailed menu allowing changes to these settings, that is what we will go over next! After providing an answer or closing this window, the next screen you will see looks like this:

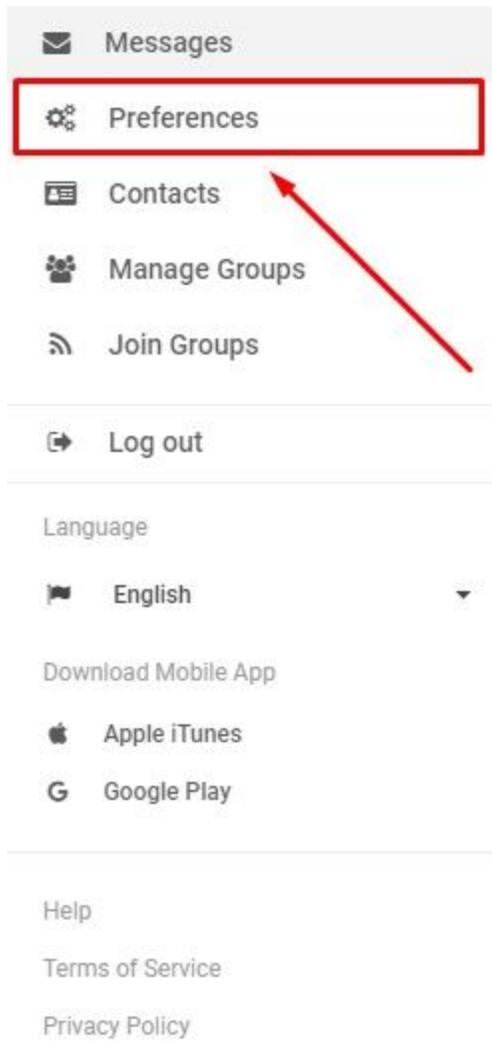

This screen contains records of all notifications received by this account, allowing you to easily access any past notification in complete detail, including being able to play back any voice recording that was attached!:

In the future, the **New Message** button in the top right will allow you to send messages to parents and students registered to your classes! Next we will go over the most important part of SchoolMessenger GO, the ability to customize your contact preferences! To do so, please click on the menu button in the top left of the screen:

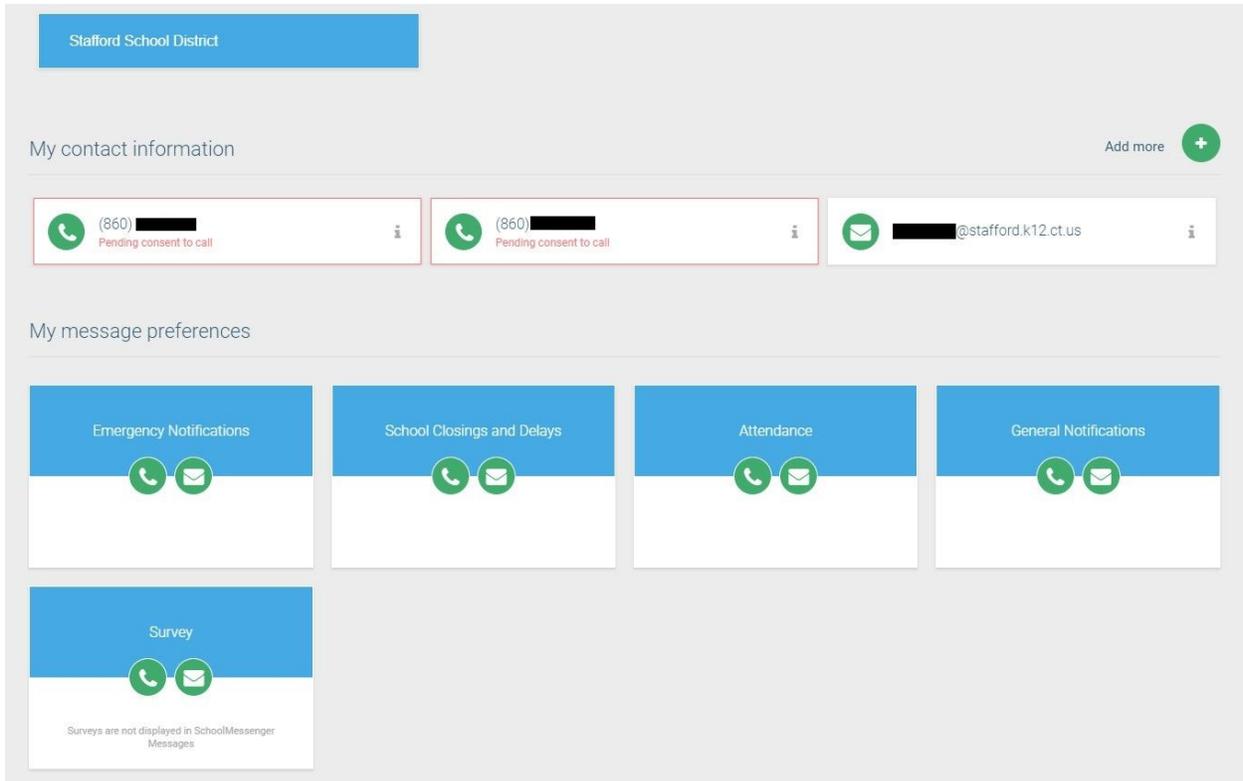

The navigation menu should pop up on the left-hand side:

Please click on the Preferences button to access your contact preferences!

This next page will most likely contain two phone numbers and an email address just like below:

There are **five** categories we have for school notifications:

Emergency Notifications: Notifications of emergencies such as lockdowns or other unexpected school events.

School Closings and Delays: Notifications for school closings and delays only.

Attendance: Automated attendance letters sent out daily to parents of students who were absent that day. (If you do not have a student in the district, this message type will not affect you.)

General Notifications: General, non-emergency notifications

Survey: Functionality for the district to send a survey question to staff or parents using SchoolMessenger contact information.

The final portion is relatively self-explanatory, clicking on one of your phone numbers, email, or any of the message types, will allow you to change which number or email receives which type of message!

School Closings and Delays
School Closings and Delays

Phone call
 (860) [redacted] OK to call

Surveys are not displayed in SchoolMessenger Messages

At the moment, the **Emergency Notifications**, **School Closings and Delays**, and **Attendance** fields all require at least **one** phone number.

Lastly, if there is any incorrect or missing information that you do not have access to change, please fill out the information change form that follows and return it to your individual school's secretary!

If you have any questions, please feel free to contact Dominic DePellegrini in the IT department at:
