

Personnel – Certified/Non-Certified

Worker’s Compensation

The Stafford Board of Education provides Workers’ Compensation for employees who suffer work related injuries. Employees shall report all work related injuries to their supervisors before the end of the work day. This applies to all job injuries, regardless of need for medical treatment. In addition to the employee’s verbal report to the supervisor, the injured employee is required to provide written reports in accordance with district protocols on file in the nurse’s office in each school building.

Policy adopted: November 14, 2005
